Summary: Full-stack Engineer with experience in building responsive, scalable, and production-ready full-stack web applications using React, Next.js, and modern backend frameworks. Experienced with containerization, cloud platforms, and DevOps practices.

Technical Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, TailwindCSS, Zustand, React Query, Redux

Backend: Node.js, Spring Boot, Express.js, REST APIs, Prisma, Python, Java

Database: PostgreSQL, MySQL, MongoDB, Supabase

DevOps/Cloud: Docker, Kubernetes, GCP, Linux

Experience

HSBC Technologies | Software Engineer | August 2023 - Present

- Developed microservices using Spring Boot and integrated them within a modular enterprise architecture.
 - Built a dynamic search feature in React.js improving data retrieval efficiency by 30%.
 - Contributed to containerization and deployment workflows using Docker and Kubernetes.
-

Projects

Realtime Chat App: Full-stack chat application with real-time messaging, friend requests, and group chat features.

Tech Stack: Next.js 14, Convex DB, TypeScript, TailwindCSS, Clerk Auth

- Built a responsive UI with Tailwind and Next.js App Router.
- Implemented real-time chat using Convex backend and WebSocket architecture.
- Integrated Clerk for seamless authentication and protected routing.

Spotify Clone : Music streaming application where users can sign up, upload, and like songs.

Tech Stack: Next.js 14, Supabase, TypeScript, TailwindCSS, Supabase Auth

- Developed the frontend using modern design principles and responsive layouts.
- Managed audio file uploads and storage with Supabase Buckets.
- Utilized Supabase APIs for backend logic and user authentication.

Twitter Clone: A full-featured Twitter clone with post creation, commenting, liking, and following features.

Tech Stack: Next.js 14, MongoDB, TypeScript, TailwindCSS, Prisma, Auth.js

- Designed and built reusable components using Next.js App Router.
 - Handled image uploads via Uploadthing and stored metadata in MongoDB.
 - Built authentication and session management with Auth.js.
-

Education: BTech in Computer Science | MIT World Peace University, Pune | July 2019 - June 2023 | CGPA: 9.32/10
